About Meyer Burger Technology Ltd

www.meyerburger.com

Meyer Burger is a leading and globally active technology company specialising in innovative systems and production equipment for the solar photovoltaic market. The company has shaped the development of photovoltaics along the entire value chain and has set essential industry standards, such as the diamond wire saw technology, the industrial PERC solution and precision measurement technology for solar modules. A large proportion of the solar modules produced world-wide today are based on technologies developed by Meyer Burger.

In line with its new business model and strategy, Meyer Burger transforms itself into a manufacturer of high-performance photovoltaic cells and modules, based on its proprietary heterojunction/SmartWire technology. With heterojunction/SmartWire, the Company has developed the next-generation photovoltaic technology with higher conversion efficiency and higher energy yield than the current standard Mono-PERC and other heterojunction technologies currently available. Meyer Burger operates its research and development centers in Thun and Hauterive, Switzerland, its machine industrialization and manufacturing site in Hohenstein-Ernstthal, Germany and will produce the cells and modules in Bitterfeld-Wolfen and Freiberg, Germany. The registered shares in Meyer Burger Technology Ltd are listed at the SIX Swiss Exchange (Ticker: MBTN).
