

Cargostore Appoints Andrew Hart to Vice President, Offshore

Cargostore Worldwide today announced that its Board of Directors has appointed Andrew Hart to the role of Vice President, Offshore, reporting to CEO Justin Farrington Smith.

After 7 strong years in which the business has seen considerable growth, current Vice President Offshore Jacob Poot, following a handover period, will be retiring from his full time role whilst continuing to support Cargostore as a non-executive Brand Ambassador.

Over the past 7 years Jacob has overseen the extensive growth of Cargostore's Offshore Division, becoming a leading global player in the supply of DNV 2.7-1 CCUs for offshore projects, as well as the expansion into new regions such as the UAE, Northern Europe and Taiwan.

Says Jacob Poot, *"For me, now is the right time to hand over to Andrew to head the Offshore Division and I am pleased that I will be able to continue to support in the future development of the company whilst maintaining contact with our partners and clients."*

Andrew Hart, formerly the CEO of Freight Forwarders Kenya brings a wealth of experience and knowledge to the team, having operated in several roles within freight forwarding and logistics serving the Oil and Gas, Mining and other major infrastructure projects.

Andrew Hart had these words to say *"Cargostore is an exciting company with a great team and I'm really looking forward to supporting the continued expansion of the business in the Oil and Gas and Offshore Wind sectors."*

Says Justin Farrington Smith, CEO of Cargostore *"Jacob leaves a lasting legacy and I'm very glad he will continue to support us from the side lines. Andrew's appointment follows an extensive worldwide search to ensure we appointed someone who not only shares our beliefs and passion for customer service, but has significant industry experience and a real desire to ensure the Cargostore growth story continues."*

About Cargostore Worldwide:

Cargostore is one of the world's fastest growing suppliers of ISO shipping containers and DNV 2.7-1 certified CCU's for on and offshore projects. With offices in London and Abu Dhabi and depots across the globe, Cargostore prides itself on providing a seamless and fast service with the flexibility to meet any client requirement.

Cargostore's Intermodal Division supplies ISO certified storage and shipping containers for lease or sale and can offer bespoke container conversions and specialised equipment. The company supplies projects in stability, mining, aid, community development, large scale sporting events and general logistics.

The Offshore Division provides a complete range of Cargo Carrying Units (CCU's) to service the oil, gas and offshore renewables industries, project movers and offshore supply companies. All equipment is designed, built and certified to DNV 2.7- 1 standard. The company has invested in a wide range of offshore CCUs and these are available via their location network in the US Gulf, the North Sea, the Arabian Gulf, Middle East, and East and West Africa.
