

The Country Pavilion is launched! Jointly Building Taiwan's Supply Chain!

Under the influence of Covid-19, business people from various countries are restricted from coming to Taiwan. In addition to launching the O2O virtual and real integration exhibition plan, WEA 2021 also jointly promotes the country pavilion with the offices of many countries in Taiwan, strengthens the international industry connection, once again create an international event for wind energy in Asia!

The country pavilion of this exhibition was first launched by the Danish and German pavilions. The Danish pavilion is co-hosted by the Danish Office of the Ministry of Foreign Affairs in Taiwan (Danish Business Office) and the Danish Wind Energy Export Association. The Danish Pavilion will showcase Denmark's offshore wind energy solutions and the most advanced offshore wind energy technology; the German Pavilion, led by the German Economic Office, will invite wind energy companies and experts to participate in the grand event and share with Taiwan partners the rich technical experience accumulated in the field of renewable energy in the past two decades.

For detailed information on the participation of the country pavilion, please go to the official website of WEA 2021 (<https://www.windenergy-asia.com/en/index.html>). The country pavilions of various countries are negotiating one after another. The latest news will also be updated in real time. Please look forward to it closely in WEA 2021!
