

Don't miss the largest dedicated offshore wind event in the UK on 29-30 September at ExCeL London – Global Offshore Wind (GOW) 2021.

Presented by RenewableUK, GOW21 will be focused on how the sector can support 20530 climate targets in the UK. The programme will be supported and enriched by Event Partners RWE, Siemens Gamesa Renewable Energy, SSE Renewables, Ørsted, Offshore Renewable Energy Catapult and Vestas. There will also be a world-class speaker line-up with individuals from a vast array of organisations, including government bodies, manufacturers, developers, project managers, stakeholders, planners and trade press, to name but a few. Plus, the eclectic speaker and delegate mix and virtual event tools will provide unparalleled networking opportunities.

Discover what challenges still lie ahead as offshore wind expands, how reliability and affordability of zero carbon technology could be further improved, and how all this will impact the wider renewable energy market.
