

**Hamburg, June 3, 2021.** The Nordex Group has secured another order in Spain with Delta4000 series turbines totalling 76.8 MW. For an expansion phase of a wind farm in central Spain, the company will supply 16 N155/4.8 turbines. The order also includes the service and maintenance of the turbines over two years.

Delivery and installation of the first turbines will begin in August 2022, and commissioning is scheduled for December 2022. The Nordex Group will install the Delta4000 turbines on concrete towers with a hub height of 120 meters, which the company produces in the country.

### **The Nordex Group - a profile**

The Group has installed more than 33 GW of wind energy capacity in over 40 markets and in 2020 generated revenues of EUR 4.6 billion. The company currently employs a workforce of approx. 8,500. The joint manufacturing capacity includes factories in Germany, Spain, Brazil, the United States, India and Mexico. The product portfolio is focused on onshore turbines in the 4 to 5.X MW class, which are tailor-made for the market requirements of countries with limited space and regions with limited grid capacity.
