

Lighting up Las Vegas

The most anticipated clean energy trade show of the year, RE+ 2023, is set to take place from September 11th to 14th, at the iconic Venetian Conference and Expo Center and Caesars Forum in the vibrant city of Las Vegas. Following the roaring success of RE+ 2022, which boasted a staggering attendance of 27,000, this year's event promises to be even better, showcasing a dazzling array of innovative products, cutting-edge technologies, and game-changing ideas across various renewable energy industries.

microgrid demonstrations and hydrogen production and applications, the RE+ show floor promises something for everyone. Witness firsthand how industries are transforming, adapting, and setting the stage for a cleaner future.

A robust schedule: full conference education and hands-on workshops

RE+ 2023 is more than just a trade show; it is a meticulously curated conference designed to empower attendees with knowledge and insights from industry experts. The full conference schedule features a lineup of distinguished speakers, thought-provoking keynotes, and in-depth sessions covering a wide range of topics related to renewable energy. From policy discussions to technological advancements, attendees will gain a holistic understanding of the renewable energy landscape and its impact on a global scale.

Additionally, hands-on workshops provide an immersive experience for participants to learn practical skills, explore emerging trends, and exchange ideas with industry experts and peers. Workshops are offered during the day on Monday September 11th and Thursday September 14th.

Networking events and opportunities: forge connections that matter

Beyond the glitz and glamor of the exhibit hall lies a treasure trove of networking events and opportunities that are sure to elevate your business endeavors. The most popular events are back, including: the Golf Tournament, 5K, Welcome Reception, and the Annual Block Party. Build meaningful connections with like-minded professionals, industry leaders, and potential clients from around the globe. Engage in thought-provoking discussions, share your vision, and explore possibilities for collaboration amongst other like-minded individuals.

The fan favorite block party at AREA15: neon nights

The excitement begins right from the outset, with the RE+ annual fan-favorite Annual Block Party hosted at the extraordinary AREA15. This is Las Vegas' newest experiential entertainment district. Prepare to immerse yourself in a night of sheer entertainment, where dazzling lights, thumping music, and an energetic crowd will set the stage for an unforgettable gathering. This is the perfect occasion to let loose, connect with colleagues, and lay the foundation for future business relationships. As the heart of the social aspect of the event, the RE+ Annual Block Party is designed to foster camaraderie and create memories that will last a lifetime.

Embark on an adventure: H2 grand prix

Buckle up for a brand-new experience! Horizon Educational will host the Horizon Hydrogen Grand Prix (H2GP) series in which students from around the globe construct,

RE+ 2023 unveils a host of new events, including the thrilling Horizon Hydrogen Grand Prix, the celebration of this year's Spotlight Country, the excitement of RE+ Tonight with Kal Penn, Actor, Harold & Kumar; Former Associate Director of the White House Office of Public Engagement; and host of Getting Warmer, the Bloomberg Green climate change docuseries, and Van Jones, CNN Host and President of Magic Labs Media. There will also be an expansive exhibit floor across three exhibit halls, all aimed at showcasing a future powered by sustainable solutions. Join us for a remarkable journey

into the future of business and entertainment, where networking opportunities, electrifying events, and unforgettable experiences await.

Double the fun: a paradise for innovators

With three exhibit halls to explore, the Venetian Expo Center and Caesars Forum offer an unparalleled showcase for the latest products, services, and ideas across the industry. Attendees can discover creativity and ingenuity, where each booth is a gateway to groundbreaking innovation. From solar and energy storage solutions to

design, and race model fuel cell power cars, gaining vital skills in renewable energy. Their 2023 H2GP World Final will bring the top 30 teams from around the globe to take center stage and compete for a chance to be crowned World Champion. Witness the fusion of speed and eco-consciousness at this must-see event.

Spotlight country Canada: highlighting innovation

At the Spotlight Country Pavilion, attendees will receive an overview of Canada’s energy landscape and a comprehensive understanding of the country’s clean energy market. Collaborate with Canadian exhibitors and learn about their innovative solutions toward Canada’s clean energy goals. Hear from esteemed experts and industry leaders who are guiding the transition of energy throughout the region by sharing their expertise. The Spotlight Country initiative embodies the essence of cross-border partnerships and serves as a reminder of the boundless possibilities that lie ahead in the world of business.
